HOMER GATES

CNC Set up/ Operator

CNC Set up/Operator with 8+ years of hands-on experience delivering precise grinding and machining for high-tolerance components. Writes and adapts programs for Studer, Okuma and Fanuc platforms while maintaining quality controls and preventive maintenance routines. Aims to expand programming responsibilities and mentor new setup operators to improve shop throughput.

EDUCATION

CERTIFICATE: CNC MACHINING **2008**
Cuyahoga Community College ***Cleveland, OH***

SKILLS

Fast learner, Shop math, Strong mechanical skills, Good multitasker, Proficient at reading blueprints, Inventory control practices, Fanuc software programmer, Excellent note taker, Jig Grinding, Studer grinders, S20, S33, S40, S41, Studer Favorit, Okuma Grinders, Mori Seiki turning machines, Haas mills and Lathes, Stama mill turn machines, CNC Programming, Tool Calibration, Machine Setup, Precision Measurement, Quality Assurance, Team Leadership, Problem Solving, Adaptability, Communication, Attention to Detail

EMPLOYMENT HISTORY

TRAVEL CNC EXPERT **2022 – Present**
Flextrades ***Bloomington, MN***

- **Servotronics** *(Buffalo, NY)*
- **Destaco** *(Chicago, IL)*
- **Conmed** *(Clearwater,FL)*
- Calibrated Studer Favorit and Studer grinders on client sites, restoring precision to tolerance specifications.
- Programmed Fanuc-controlled CNC mills and lathes on-site, reducing setup time between jobs.
- Trained plant machinists in to run and operate machines in a timely manner to avoid errors.
- Traveled across many states running various machines to complete various types of jobs from aerospace, medical to government.

CNC SET UP/ OPERATOR **2018 – 2023**
Kennametal ***Solon, Ohio***

- Set up and operations of CNC Mills, lathes and mill turn machines for proper machining of various custom tool and drills.
- Read and interpret blueprints to properly machine those various products.
- Trained on various machines to prepare for new line of machines to be a setup operator in the future.

CNC SET UP/ PROGRAMMER/ OPERATOR **2017 – 2019**
Sumitomo Electric Carbide Manufacturing ***Mentor, Ohio***

- Write programs for Studer and Okuma grinding machines for ID/OD Grinding purposes.
- Produce machined parts by setting up, and operating a computer numerical control machine.
- Maintaining quality and safety standards while keeping records and maintaining equipment.
- Planned machining by studying work orders, blueprints, engineering plans, materials, location of surfaces, and machining parameters as well as interpreting geometric dimensions and tolerances.
- Maintained equipment by completing preventive maintenance requirements; following manufacturer's instructions, troubleshooting malfunction and calling for repairs.

CNC SET UP/ PROGRAMMER/ OPERATOR **2013 – 2017**
Rexnord Aerospace ***Twinsburg, Ohio***

- Perform proper set-up and calibration procedures for all equipment and accessories to be used on projects.
- Measure dimensions of finished workpieces to ensure conformance to specifications, using precision measuring instruments, templates, and fixtures.
- Stop machines to remove finished workpieces or to change tooling, setup, or workplace placement, according to required machining sequences.

- Mount, install, align, and secure tools, attachments, fixtures, and workpieces on machines, using hand tools and precision measuring instruments.
- Followed company procedures to maintain work environment in a neat and orderly condition.
